Inspection Report

Location : ITO Chungi
Area (in ha.) : ITO Chungi various loops
Year of Plantation : 2024-25
Scheme : State Budget

It is to submit that an inspection of shrubs and bamboo at the ITO Chungi plantation area (various loops) was carried out by the undersigned on .15.7.24.... and it was found that the contractor has completed the work and is maintaining the site properly by taking up regular tending operations such as watering, cleaning, hoeing, removal of weeds including watch & ward of the plantation area.

During the inspections records were also checked and it was further directed to site incharge to update the entries in stock register including details of utilization of water tankers, replacement of plants (if any) works carried out by the labourer deployed at the site on regular basis for compilation of records.

Deputy Range Officer
